

TRAFFIC MANAGEMENT IMPLEMENTATION VEHICLE - TMIV

Vehicle Description

TQ - Traffic Management Implementation Vehicle - TMIV's are the best option for a FAST traffic management implementation. Designed to carry traffic control signs and devices that could be accessed from both sides of the TMIV's and with the capacity to carry more signs than a standard traffic control ute and approx. 300 cones at once, our vehicle are ideal for MINING, HIGHWAY & LONG DISTANCES TRAFFIC MANAGEMENT IMPLEMENTATION. Our TMIV's have the capability to carry up to 3 passengers (driver and 2 passengers). They provide maximum safety to the workers and rapid job implementation. Your company can save time and money using our TMIV's
